Student Speech: Praseela Rai

My name is Praseela Rai and I am in the 5th grade. I come from Nepal. My tutor Rachel started helping me last February. We do lots of things together. Rachel helps me with my homework and with reading and writing. She taught me to play educational games like boggle and hangman. Sometimes she wins, but sometimes I win. Before Rachel, it was hard for me to do my homework. But we spent a lot of time reading together. When I don't know the words, she teaches me what they mean. We also have fun together. We made pizzas, and Rachel taught me how to ride a bike--we rode our bikes all the way to the park! She is a great teacher and a great friend.
